

kdnltv30 has no locally produced programs. It disbanded its local news programming years ago. It seems to be using its license as a cash cow, not serving the public. Further, the owner Sinclair Broadcast Group has taken it upon itself to censor the network it's affiliated with. It seems the FCC is more interested in these broadcast groups' profitability than the public's right to know. I was further incensed by what Sinclair put on instead of "Nightline" an infomercial for their position thinly veiled as a news show. I would like to know when their license is up for renewal so I can file a formal complaint.
